affected employee. The following procedures shall not preclude the employer from other administrative action.

2. Drug testing shall also be authorized when an employee is involved in an on-duty motor vehicle accident which results in bodily injuries to any vehicle occupants or the employee, or when the employee has discharged a weapon while on duty.

3. All drug screening tests shall be conducted by medical laboratories licensed by the State of Ohio and accredited by the College of American Pathologists or other mutually agreed upon entity. The procedures utilized by the testing lab shall correspond to accepted medical practice. Any positive result shall be confirmed by a mass spectrophotometer procedure (GS-MS), or any approved subsequent state-of-the-art confirmatory test.

4. Drug screening tests shall be given to employees to detect the illegal use of controlled substances as defined in Section 3719 of the Ohio Revised Code. If the initial screening is positive, the employee's sample shall be subjected to a confirmatory test that shall be administered by a medical laboratory licensed by the State of Ohio and accredited by the College of American Pathologists or other mutually agreed upon entity. The employee may have a second confirmatory test of the split sample done at a lab of his choosing, at his expense. This test shall be given the same evidentiary weight as the previous test, provided a neutral chain of custody remains unbroken.

a. If all the screening and confirmatory tests are positive, then the Bargaining Unit Member involved may be required to enter into rehabilitation referral. The City shall maintain the right to discipline the employee in addition to mandating rehabilitation.

b. Prior to any notification by the Employer for drug screening or testing, an employee may elect to participate in a rehabilitation or detoxification program, as determined by appropriate medical personnel. The cost of the program will be covered according to the provisions of the employee's health insurance plan.

c. An employee who participates in a rehabilitation or detoxification program shall be allowed to use sick leave, vacation leave, or personal days for the period of the rehabilitation. If no such leave credit is available, such employees shall be placed on leave of absence without pay for the period of the rehabilitation leave.

d. Upon completion of the program, and provided that a retest demonstrates that the employee is no longer illegally using a controlled substance, and/or subject to any disciplinary action that may be taken pursuant to this Article, the employee shall be returned to his position. Such employee may be subject to random retesting upon return to his position for a period of one (1) year from the date of his return.

e. Any employee in the above-mentioned rehabilitation program will not lose any seniority or benefits should it be necessary that he be required to take a medical leave of absence without pay for a period not to exceed ninety (90) days.

f. If an employee refused to undergo rehabilitation or detoxification pursuant to a lawful order, or he fails to complete a program of rehabilitation, or if he should test positive at any time within one (1) year after his return to work upon completion of the rehabilitation program, the employee shall be subject to disciplinary action.

g. Except as otherwise provided herein, the cost of all drug screening shall be borne by the City.
